

High School Movie Night

Wednesday May 8th at 5:30 pm

Join your fellow students for a teen only night off with free pizza and a movie on the big screen.

This month we are showing Katsuhiro Ôtomo's gorgeously drawn anime spectacular Steamboy. The explosive story of young Ray Steam and his struggle to keep his family's fantastically powerful invention from falling into military hands. Set in the 1880s this film features wildly improbable technology and explosions. There is also a spoiled rich girl and explosions, and greedy villains and explosions and... man they really blow the crap out of London in this film!

2005 PG-13
